DI – Approximations & Strategy Practice - 01

DIRECTIONS ***for questions 1 to 12:*** *Calculate Percentage Change if Data X becomes Data Y.*

Q. No.	Data X	Data Y	A	B	C	D	E
1.	**232**	**647**	135.78	200.43	64.14	178.88	221.98
2.	**533**	**591**	9.81	20.26	10.88	-7.88	29.64
3.	**833**	**115**	-74.19	-80.84	-624.35	-98.20	-86.19
4.	**623**	**653**	20.87	12.03	4.59	11.24	4.82
5.	**487**	**755**	65.30	55.03	35.50	34.50	75.56
6.	**399**	**301**	-49.62	-12.84	-32.56	-24.56	0.50
7.	**805**	**514**	-36.15	-29.94	-56.61	-48.57	-23.73
8.	**905**	**280**	-69.06	-63.54	-223.21	-80.11	-58.01
9.	**465**	**814**	42.87	85.81	75.05	53.55	96.56
10.	**75**	**779**	1072.00	1005.33	90.37	805.33	938.67
11.	**195**	**175**	-52.31	24.62	-10.25	-9.03	50.26
12.	**433**	**337**	-45.27	-10.62	-28.49	-22.17	0.92

DIRECTIONS ***for questions 13 to 20:*** *Answer these questions independently of each other.*

13. Calculate $\frac{C}{I}$: $I \times 0.72 \times 10 = C \times 4.8$

1. 65% 2. 75% 3. 100% 4. 150%

14. $\frac{E}{F} = 60$. What is $\frac{0.646 \times E}{0.903 \times F}$?

1. 43 2. 22 3. 67 4. 75

15. $\frac{140000 \times 0.141}{2700/1.8} = ?$

1. 123 2. 13.1 3. 4.1 4. 1.4

16. $\frac{(6+12)\times 30}{(22+9)\times 12} =$

1. 0.7 2. 1.2 3. 1.5 4. 1.8

17. Express as a percentage $\frac{24{,}568+25{,}468}{89{,}570}$

1. 60 2. 55 3. 50 4. 45

18. How many values are less than 5% of 3374?

55, 666, 2006, 115, 301, 140, 91

1. 2 2. 3 3. 4 4. 5

19. What is the average of 190 × 18% and 200 × 14%

1. 28 2. 31 3. 34 4. 309

20. Which is the highest percentage increase?

1. 350 to 459 2. 490 to 670 3. 650 to 950 4. 950 to 1,250

Answer Key

Q. no	Key	Explanations
1.	D	100 × (647 – 232)/232 = 178.88%.
2.	C	100 × (591-533)/533 = 10.88%.
3.	E	100 × (115-833)/833 = -86.19%.
4.	E	100 × (653-623)/623 = 4.82%.
5.	B	100 × (755-487)/487 = 55.03%.
6.	D	100 × (301-399)/399 = -24.56%.
7.	A	100 × (514-805)/805 = -36.15%.
8.	A	100 × (280-905)/905 = -69.06%.
9.	C	100 × (814-465)/465 = 75.05%.
10.	E	100 × (779-75)/75 = 938.67%.
11.	C	100 × (175-195)/195 = -10.04%.
12.	D	100 × (337-433)/433 = -22.17%.
13.	4	C/I= (0.72×10/4.8)×100 =150%
14.	1	(.646×60/.903)= 43
15.	2	(140000×0.141×1.8/2700) = 13.1
16.	3	((18×30)/(31×12))=1.5
17.	2	100×(24568+25468)/89570=55
18.	3	0.05×3374=168.7 55,115,140,91 are less than 168.4 Answer is 4 which is option 3.
19.	2	190×.18=34.2 200×0.14=28 The average of these two (34.2+28)/2=31.1.
20.	3	100×(459-350)/350=31.14% 100×(670-490)/490=36.73% 100×(950-650)/650=46.15% 100×(1250-950)/950=31.57% 3rd has the highest percentage increase.
